SENIOR SOFTWARE ENGINEER

supertal

WE'RE GROWING AND LOOKING FOR

We are looking for an expert JavaScript developer who is highly skilled with React.Js and Node.Js. Your primary focus will be developing user-facing web applications and components. You'll implement them with the Vue.js framework, following generally accepted practices and workflows. You will ensure that you produce robust, secure, modular, and maintainable code. You will coordinate with other team members, including back-end developers and UX/UI designers. Your commitment to team collaboration, perfect communication, and a quality product is crucial.

WHAT YOU'LL DO DAY TO DAY:

- Developing user-facing applications using Vue.js
- Building modular and reusable components and libraries
- Development of backend services that power our products and taking responsibility for scalability and reliability of them.
- Optimizing your application for performance
- Contribute to the entire development life cycle of analysis, design, implementation and test.
- Implementing automated testing integrated into development and maintenance workflows
- Staying up-to-date with all recent developments in the JavaScript and Vue.js space
- Keeping an eye on security updates and issues found with Vue.js and all project dependencies
- Proposing any upgrades and updates necessary for keeping up with modern security and development best practices

ABOUT YOU:

- Proficiency in React + Node.
- Highly proficient with the JavaScript language and its modern ES6+ syntax and features
- Highly proficient with the Vue.js framework and its core principles such as components, reactivity, and the virtual DOM
- Exposure to developing apps using React, NodeJS, JavaScript, MySQL.
- Familiarity with the Vue.js ecosystem, including Vue CLI, Vuex, Vue Router, and Nuxt.js
- Good understanding of HTML5 and CSS3
- Understanding of server-side rendering and its benefits and use cases
- Knowledge of functional programming and object-oriented programming paradigms
- Ability to write efficient, secure, well-documented, and clean JavaScript code.
- Experience with both consuming and designing RESTful APIs
